

**LONDON
BLOCKCHAIN
CONFERENCE**

WORLD CHANGERS ARE WELCOME

SPONSORSHIP & EXHIBITOR PACKAGES

**Evolution London
22-23 October 2025**

CAN A CONFERENCE CHANGE THE WORLD?

This one can and that's our aim – to show businesses and governments precisely how BLOCKCHAIN, AI and Web3 can solve the world's biggest data challenges.

Last year, more than 5000, including 700 C-level attended – where they heard from some of the biggest names and brightest brains in global tech.

Our aim is to go bolder and better – and continue to be the technology conference that nobody can afford to miss.

MORE THAN WORDS

What makes the London Blockchain Conference different from the tech conferences we've all been to – and forgotten about – is that our programme is designed to help people act.

Every talk, from every extraordinary expert is intended to show people what blockchain can really do – and showcase real-world case studies of the impact the technology can have.

The same goes for every exhibition, panel discussion, interactive session and networking opportunity – attendees will come away inspired, educated and ready to go.

ONLY THE BLOCKCHAIN BIG GUNS

There are no scammers, pretenders or impostors on our speaker line-up – just the world's top technology leaders, thinkers and innovators.

In fact, to give you an idea of the level of speakers we look for, here are just a few of the extraordinary people who have been on our stage...

- **Steven Bartlett**, Entrepreneur, Investor and Author, Flight Studio & The Diary of a CEO
- **Scott Galloway**, Stern School of Business / Entrepreneur
- **Tibor Merrey**, Managing Director & Partner, Boston Consulting Group
- **Dr. Kary Oberbrunner**, CEO, Blockchain Life
- **Lisa Cameron MP**, Conservative Member of Parliament and Chair of the Crypto and Digital Assets APPG
- **Mayor Hillary Schieve**, Mayor, City of Reno

NETWORK LIKE NEVER BEFORE

Founders, CEOs, MDs, innovators, tech journalists, government decision makers, business leaders... and representatives from some of the world's biggest brands and organisations.

That's what you'll find at the London Blockchain Conference – an enormous community of like-minded, curious and motivated people who are ready to see what blockchain can do.

THE BEST OF THE BLOCKCHAIN BEST

In 2024 we were proud to welcome these leading thinkers to our stage

Steven Bacci,
Principal Worldwide Specialist
Solutions Architect, AWS

Before delving into blockchain, he worked for over two decades in Capital Markets, where his focus was on creating leading edge software and systems for trading desks. At AWS, Steven serves as a principal advisor and architect, guiding a diverse array of customers on blockchain and Web3 applications.

Kirsteen Harrison,
Sustainability Director, Zumo

With an overarching interest in the role of organisational culture in enabling effective climate action, Kirsteen works with leaders to facilitate the mindset shift required for businesses to thrive in a net zero future. Kirsteen has a particular interest in blockchains and cryptocurrencies, both as part of the problem, and as part of the solution.

Scott Zoldi,
Chief Analytics Officer, FICO

Scott is an industry leader at the forefront of Responsible AI, and an outspoken proponent of AI governance and regulation. His groundbreaking work in AI model development governance, including a patented use of blockchain technology for this application, has helped propel Scott to AI visionary status.

Doro Unger-Lee,
Head of Education and
Inclusion, Algorand Foundation

As part of the business development team, Doro manages all education and capacity building programs, university engagements and financial inclusion efforts at the Foundation. As part of her role she also runs global partnerships with the United Nations Development Program (UNDP).

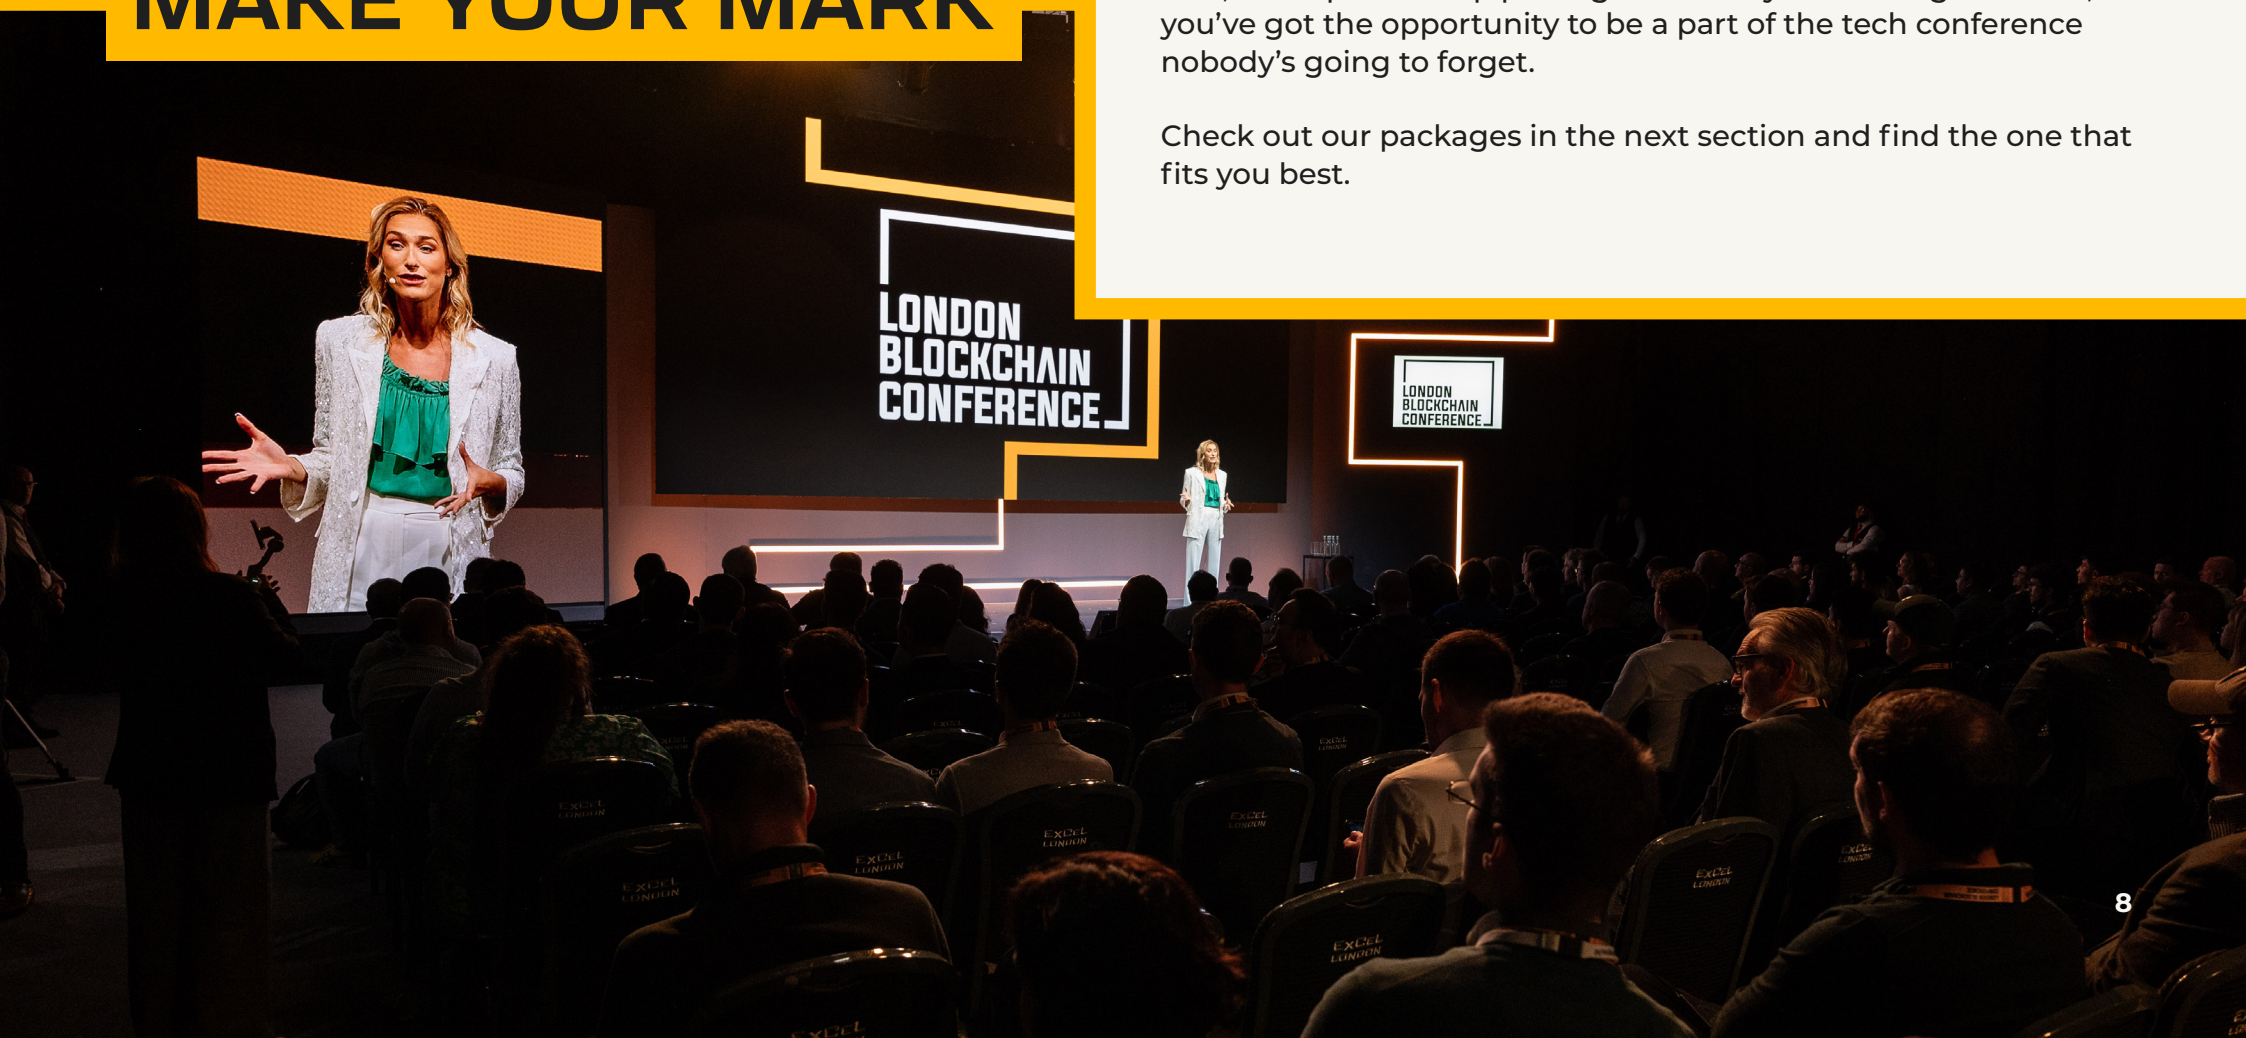

TAKE YOUR PLACE.

MAKE YOUR MARK

From the speakers and the space, to our mission to bring the problem-solving power of blockchain to businesses, government and beyond, this is no ordinary conference.

And, with sponsorship packages for every kind of organisation, you've got the opportunity to be a part of the tech conference nobody's going to forget.

Check out our packages in the next section and find the one that fits you best.
